LYNNE CONSOLIDATION BILL INTRODUCED IN HOUSE

Street Railway Men Strike As Chicago Race Riot Rages

MEASURE PROVIDES FOR MERGER CITIES BY POPULAR VOTE

MAJORITY IN BOTH TOWNS NECESSARY BEFORE UNION CAN TAKE PLACE.

Fair to Both Cities

ALBANY WOULD HAVE CONTROL OF COUNCIL FROM THE VERY START. NOT LOCAL LAW.

The Lynne bill, providing for an election in Albany and Decatur to determine whether or not the cities shall be consolidated, was introduced in the Alabama legislature late yesterday by Representative Lynne. It was referred to committee and will be taken up by the senate later.

The measure, while general in its nature, contains provisions that cities between a minimum population of 4,000 and a maximum of 7,000 under the 1910 census shall be consolidated after the qualified voters of both cities have voted in favor of it. The measure was drawn by prominent business men of each city. It was endorsed later at a mass meeting held in the rooms of the Albany Board of Commerce.

Provides Election
The provisions of the Lynne bill were made public here by the consolidationists on the day following their meeting. It provides that upon the filing of a petition containing the signatures of 25 per cent of the qualified voters of both cities, the probate judge of Morgan county shall call an election, name the election officials, giving representation to the advocates and opponents of consolidation and after the votes have been canvassed, shall announce the result.

In the event that the consolidationists win, the bill provides that the Decatur city council shall immediately name three additional aldermen, giving Decatur the same number of councilmen as Albany; the council shall then name a president of the council who shall be a resident of Albany, giving Albany control of the body by a vote of 9 to 8. The council also shall name a mayor, who shall be a resident of Decatur. The new council will divide the city into wards of equal population and as nearly square as possible. After the next general election because of larger population, Albany would elect the majority of the council and would be in full control of all municipal affairs.

The present indebtedness of the two towns would be an obligation only on the revenues derived from the municipality which incurred the debt.

The bill has been declared to be one of exceptional fairness, and has strong support in both Albany and Decatur.

Set for Hearing
The bill was set for hearing tomorrow night at the Exchange Hotel, according to advices from Montgomery today, and several local citizens left for the state capital to appear before the committee and present the respective claims of the consolidationists and the anti-consolidationists. An effort on the part of the opponents of the Greater City idea to delay the hearing proved unsuccessful, it was believed here this afternoon, although no definite word has been received. Several other representatives of the two sides will reach Montgomery before tomorrow night.

Ariton Ball Team Challenges State

Manager Ott Hames' attention today was called to a defi to the ball teams of Alabama thrown out by Ariton, Ala. In a challenge printed in the Montgomery Advertiser, the Ariton squad claims the amateur championship of the state and announces it is ready to meet any team in the state which has proven itself to be fast enough to warrant the games. The manager claims the team has lost only four games this season, won 19 and tied one.

RIDDLE IS SOLVED; LOCALS WIN THE OPENING CONTEST

BASS COPS PITCHER'S DUEL FROM HALEYVILLE'S PREMIER TWIRLER.

Visitors Are Shut Out

HALBROOKS SECURES TWO OF SIX HITS GARNERED BY HOMEFOLKS.

(By BARRETT SHELTON.)

The Haleyville, Ala., baseball team was defeated Monday afternoon by the Albany-Decatur outfit by the score of 1 to 0. The lone counter of the contest was put across in the seventh round by Hatchett, a recruit from Athens. The run was scored on errors by M. Green, covering the keystone position for the visitors. Hatchett singled. E. Baker bunted and was safe when Riddle threw F. Barnes out at the plate, Hatchett going to third. Bass punched one at M. Green, who let the ball get by him, and Hatchett counted.

Bass, on he bill for the locals and Riddle doing the mound work for Haleyville, were in fine form for the encounter and both deserved the victory. Bass yielded only four safeties, the only six were garnered off Riddle. The former got five via strike out route, while Riddle sent seven back to the bench without connecting with the horsehide. Bass issued one pass and each boxman cut loose two wild heaves.

Ches. Halbrooks, recovering from his recent slump both at the bat and in the field, connected with the ball safely twice out of four trips up and also made a brilliant catch of G. Drake's drive over second in the seventh inning.

Not one of the Haleyville men succeeded in reaching third in the game and only two reached second.

Albany-Decatur presented a rather patched lineup. Frohoff was out on account of an injury received while at Lawrenceburg. F. Barnes took Erwin's place at first. Both of the "subs" played a good game at their new positions. N. Baker led the strike out kings at the bat, with three whiffs in four times up.

Game in Detail

First Inning
H. Green grounded to Bass, Mayhall out, Bass to F. Barnes, Riddle grounded out at first.

Roberts' dumped one at Riddle and was out at first, Halbrooks singled but was out on a delayed steal, G. Drake to M. Green; McDuff hit by pitcher; Steadman grounded to third and was out at first.

Second Inning
M. Green rolled a slow one to Bass and was out at first; G. Drake fouled a high one to N. Baker; Mosely struck out.

N. Baker whiffed; F. Barnes singled to center, Hatchett lined to P. Drake and Barnes was doubled at first.

Third Inning

P. Drake poked a single to left; Hilton singled to right; Drake out, stealing, Bass to N. Baker; Dozier flied to Roberts, H. Green fanned.

E. Baker singled thru short and was safe at second on Bass' grounder when Green dropped the throw; Bass safe at first; E. Baker out at third, Riddle to P. Drake.

Roberts safe on attempted sacrifice; Roberts forced at second on Halbrooks' grounder, G. Drake to M. Green, Bass going to third; Halbrooks stole second; McDuff flied to center.

Fourth Inning

Mayhall out, Bass to F. Barnes; Riddle singled over second; M. Green struck out; Riddle forced at second by G. Drake, fielder's choice, McDuff to Halbrooks.

Steadman went out, Riddle to G. Drake, N. Baker and F. Barnes fanned.

Fifth Inning
Mosely flied to Hatchett, P. Drake flied to N. Baker; Hilton out, Bass to F. Barnes.

Hatchett struck out; E. Baker grounded out; Bass singled to short; Roberts flied to Mosely.

Sixth Inning

Couldn't Get Her Number, Peeved, Faces the Mayor

A negro woman arraigned in Decatur police court this morning was fined \$28.60 on a charge of shooting a firearm within the city limits and \$13.60 on a charge of swearing in the presence of a female.

According to testimony introduced in all came about because the defendant was unable to get the number called for over the telephone.

The complaint was made by a Vine street merchant who said the woman came into his store and requested permission to use the phone. The permission obtained she tried to get her number without avail. Becoming peeved she slammed the receiver down, which in turn called for a protest by the merchant and was met by a stormy rejoinder by the negress. Later she is said to have walked out on the sidewalk and hurled a missile into the store, breaking some china ware.

Still later she is alleged to have gone across the street to her home, obtained a shot gun and fired it. She explained that she "wanted to see if it was loaded." It was. But the shot went into the floor of the house.

REVENUE BILL IS BEFORE THE HOUSE

MOTION TO CUT OFF DEBATE IS EASILY DEFEATED.

(International News Service.)
MONTGOMERY, July 29.—The lower house of the Alabama legislature today took up consideration, section by section, of the new revenue bill containing the income tax favored by Governor Kilby, and early in the session defeated by a vote of 49 to 25 an attempt to cut off debate. Lee Long of Butler opened the attack on the bill. The administration spokesmen in Representative Murphree of Etowah.

FRANCE-AMERICAN PACT PRESENTED TO U. S. SENATE TODAY

PRESIDENT MAY POSTPONE SPEAKING TRIP UNTIL AUGUST 15.

Daylight Repeal Out

PRESIDENT WILSON SENT THE DOCUMENT TO CAPITOL BY MESSENGER.

WASHINGTON, July 29.—President Wilson today submitted to the senate the text of the Franco-American pact, and in an accompanying message urged its early ratification for the reason that America's debt to France has not yet been fully paid.

Referring to the assistance rendered America by France in the days of the Revolution, the President declared that "nothing can repay such a debt." "It is one of the fine reversals of history," he added, "that the other nation should be the very power from whom France fought to set us free."

(International News Service.)
WASHINGTON, July 29.—President Wilson will submit the text of the Franco-American pact to the senate today, it was announced at the White House. The pact, under which the U. S. with Great Britain agrees to go to the assistance of France in the event of an unprovoked attack on her by Germany, will not be presented by the President in person but will be sent by messenger with a message accompanying.

MAY POSTPONE TRIP

(International News Service.)
WASHINGTON, July 29.—Unless the present extreme hot wave subsides it is possible that President Wilson may delay the start of his speaking tour until August 15, it was learned at the White House today. Rear Admiral Grayson, the president's physician, has strongly urged that he not attempt the trip until weather conditions become more favorable. In the meantime the president will continue to meet the republican senators at the White House, although none was on the list for today. Senators Swanson and Underwood, both democrats, were the only members of the upper house with appointments today.

TREATY REPORTED

WASHINGTON, July 29.—Senator Cummins of Iowa this afternoon presented to the senate for the interstate commerce committee a favorable report on the house bill repealing the daylight savings act. He announced he would ask to have the bill acted upon tomorrow.

LOCALS TO LEAVE FOR ROAD TRIP

GO TO HUNTSVILLE THURSDAY AND HALEYVILLE MONDAY.

The Albany-Decatur outfit, after the present series with Haleyville, goes to Huntsville for a two game series. Next week they journey to Haleyville for three contests. They they come back to their home lot to try and defeat the Lawrenceburg aggregation, which will make Albany-Decatur a visit on the 7th, 8th and 9th of August. They will then leave for a three game series at Athens, Ala., Lenoirville, Tenn., and Columbia, Tenn. Pitcher Riddle of the Haleyville club is one of the few that have been able to put the skids under Lawrenceburg. Cy Graham and E. Barnes are the only two home ball tossers that have accomplished this marvelous feat. Both these games were shut-outs.

WEAKLEY FAVORS "LEAGUE OF CITIES" AND A COVENANT OF ETERNAL PEACE

Former Resident, As An Outsider, is Strongly in Favor of Consolidation

Harvey Weakley, a former resident of the Twin Cities, and who pays a license to do business here now, in an interview today strongly advocated consolidation and suggested a "league of cities" and a covenant of peace.

Mr. Weakley's statement follows: While no longer a citizen of the Twin Cities, I have always had the greatest interest in their welfare, and the greatest confidence in their future growth. The interests of the two towns are identical; the people are meeting daily in the most intimate business and social relationship; many reciprocal arrangements, such as licenses to do business, already exist; then why the division?

Romeos Whistle Serenade to Fair Juliettes—Court!

Four Decatur youths yesterday attempted to out-romeo Romeo but found their path to the fair Juliette beset with many difficulties and wound up this morning in the Decatur police court.

According to the reports made to the police the four defendants were standing on Bank street when they espied four of Lee Osborne's chicks, who are playing at the Masonic theatre, on the other side of the thoroughfare. They are alleged to have whistled several times at the chorus girls, who were unresponsive.

A male member of the company, who was accompanying the girls, was more than responsive, however. He was demonstrative. He is said to have offered to tackle the local talent singly or in bunches and was preparing to shed his coat to get a better swing. His challenge was not accepted and he complained to the authorities. The youths were told to appear in court this morning, which they did, but no one was present to appear against them and the cases were dismissed by Mayor Nelson with a warning.

MAYOR WILL NAME AN ACTING CHIEF

MEMBER POLICE FORCE TO BE PROMOTED TO TEMPORARY HEAD.

Mayor Dillehay will name a member of the present police force of Albany to serve as chief from August 1, when Chief Howell's resignation goes into effect, until his successor is elected by the council.

The aldermanic body is not expected to take action until the next regular meeting night, Tuesday, August 5. Several candidates are being mentioned in connection with the place, including Tull Worley, Claude McMillan and present members of the department.

Mayor Dillehay stated today he has not yet made up his mind which officer will be promoted to acting chief.

GREASER BANDITS DYNAMITE TRAIN

(International News Service.)
EL PASO, Tex., July 29.—Eighteen passengers, 12 of them boys from an agricultural college at Pueblo, and 35 federal soldiers, were killed when Mexican bandits dynamited a train on the Mexican railway in the mountain regions 100 miles east of Mexico City according to word received here today.

First Division is Ordered Home

(International News Service.)
WASHINGTON, July 29.—The first division, less such units as may be retained, will start moving for base ports on August 15, General Pershing advised the war department this afternoon. This is the last division on foreign soil and has been in the army of occupation.

FIFTEEN HUNDRED PERSONS IN UPTOWN DISTRICT KILL NEGROES ON SIGHT.

(International News Service.)
CHICAGO, July 29.—Fifteen thousand Chicago street and elevated railway employees are on strike today, and the city's electrical transportation is tied up. Since 4 o'clock not a wheel has turned and all elevated and surface cars are locked up in their barns. The strike came like a lightning bolt to Chicago. Reports late yesterday indicated that negotiations that have been in progress several weeks would be successful and the strike averted. So confident were many that the strike had been averted that Governor Frank O. Lowden, after a day of conference with employers and employees, left the city, thinking a basis of adjustment had been reached, but the strike came when an attempt was made to spring a compromise proposition to which union leaders and the heads of the street railway companies had agreed. In a veritable deluge of hisses and cheers, the carmen voted down the proposition.

CHICAGO, July 29.—Twenty-nine dead were reported today, and others were dying among the estimated 500 wounded, as the race riots that began Sunday among negroes and whites on the southside spread to the heart of the business district early today. Nine new deaths and at least 50 injured were added to the grim toll of the disturbances, as the result of fresh outbreaks in the early hours today.

With the situation admittedly growing hourly more alarming, Governor Lowden returned hurriedly to the city and offered the mayor and chief of police the services of 4,000 militiamen for instant military duty. Adj. General Frank S. Dickson, after an inspection, reported the troops ready for immediate action. Veterans of the police force declared that the militia would have to be called out before nightfall, and that troops would have to be used to guard the downtown business districts.

"Bring the militia into the Loop," cried one of the officers. "If they don't, there will be a massacre on State Street."

At this time a mob of 1,500 men, some of them soldiers and sailors in uniform; has been rioting for more than three hours in the downtown section. As a result one white man and one negro have been shot to death and a dozen people mauled and stabbed. From the southside, where residents underwent a night of flaming terror, reports of fresh fighting between the races had been received. Last night was the wildest night in years in the "black belt" of Chicago. Beginning late in the afternoon, mobs of white men swept through the streets, attacking every negro that appeared, while mobs of negroes attacked every white man they could find. Women and children were beaten, shots were fired, knives wielded, stones and sticks hurled and houses burned and looted.

Before the rioting had progressed more than a few hours, southern hospitals were filled with victims. Telephone wires were cut, and scores of white men and negroes were placed under arrest.

The situation in the business district is so serious that Capt. Edward Conroy, of the central police station, prepared early today to appeal for troops unless more policemen become available for duty in the downtown district. Orders were issued to all patrolmen to "pick up" all negroes in the downtown section, as it was feared the presence of the black men would inflame the crowd. Militiamen, awaiting a call to service, are equipped with 100 rounds of ammunition to the man and are at their arms.

THE CONSOLIDATION ISSUE IS NOW SQUARELY DRAWN

The meeting of Albany citizens, recently held at the rooms of the Board of Commerce, when probably 150 persons elected to constitute themselves representatives of "ninety per cent" of the qualified voters of this city, did much to clarify the situation as regards consolidation, for the meeting went on record as opposing consolidation in any form.

In proof of this assertion, should it be disputed, the Daily quotes two paragraphs of the resolutions drawn and adopted, as vouched for by the publicity committee of the citizen's meeting. These two paragraphs follow:

Be it resolved by the citizens of Albany, in this meeting assembled, that we are opposed to the consolidation of Albany and Decatur.

Be it Further Resolved that this meeting does hereby protest against and condemn the said bill for the reasons set forth, and we oppose any other bill for consolidation at the present time.

The first of the foregoing is the initial paragraph of a long set of resolutions, and it makes plain the purpose of the meeting—to defeat consolidation under any conditions. The second paragraph, which follows an attack on the Lynne bill, criticising it as unfair, goes even further and asserts that "we oppose any other bill for consolidation at this time." No matter what the provisions of the bill were, no matter how fair it might be, the meeting is on record as opposing it.

In the past the opponents of consolidation have fought under cover. They have favored the merger of the cities under certain conditions, conditions that would give one or the other an advantage. This cloak, however, has been thrown away, and from this time forth those who look with disfavor on the Greater City idea are out in the open. It is better that this is so.

CHICAGO DISGRACED BY RACE RIOTS

Those residents of the South who are familiar with the bitter tirades of the Chicago Tribune against this section, tirades that were prompted only by meanest sectionalism, must have had an inkling that a municipality that could foster such a venomous sheet was at heart base and ignoble. The race riots which are now disgracing that metropolis confirm this inherent feeling, this subtle "hunch," and expose the predeceasing clay feet of the Windy City, the fallen idol, in all their hideous nakedness.

In the very heart of the populous Middle West, without cause or excuse, protected by one of the most powerful police organizations in the world, this gilded city beside the Lakes has begun the wholesale massacre of the negroes whom it invited to its bosom, and whom it promised to love and protect. It has betrayed its guests, turned upon them with a frenzy that the South never knew, and is slaughtering men and women and children in cold blood merely because they are black. How strongly this Batholomew stands out against the action of the South, which in a few instances has avenged heinous crimes committed against white women by negro men by a summary execution, or against the occasional race riots that have resulted in bloodshed in isolated areas where the blacks were largely in the numerical ascendancy, and where strong measures were necessary!

The South did not send for the negro, nor did it entice him here by seductive promises of social equality. It accepted him as a human being, worthy of every consideration that humanitarianism accords, but demanded that the social line be drawn. The South has been honest and candid. Has Chicago been the same?

But why lament? What more could be expected of a city that elected to office during the trying days of the war, when Americanism was rampant and when the future of the nation was at stake, a man notorious for his disloyalty to the flag? Or what more could be expected from a municipality that has as its mouthpiece and prophet a newspaper that dubs Henry Ford an "anarchist" and the South as "illiterate and barbarous"?

CONSOLIDATION VS. CONSOLIDATION

Albany-Decatur Daily:

Certain erroneous impressions exist with reference to the effect of the proposed consolidation bill:

1. As under it, Albany, would have as many councilmen as Decatur, and, in addition thereto, the President of the Council, which last fact seems to be ignored by the anti-consolidation publications on the subject, it would be impossible for Decatur to bring about an unfair division into wards.

2. Could the new council unjustly over-ride the plain provisions of the New Law for an equal division of the Consolidated City into wards without the active co-operation of Albany's own councilmen? Insinuations that such power will be exercised arbitrarily involves the councilmen, of Albany, without whose aid, nothing can be done by the New City one way or the other.

3. As to the suggestion that the New Council would have the power to refuse to lay off the city into wards, notwithstanding the law says, they shall do so; and forever keep themselves in office, it may be suggested that the present law confides to the respective councils, as they now are, the power of providing for the holding of elections for their successors; also exclusive power to prepare ballots, canvassing, preparing returns, etc. Now if they should refuse to do that, there would be no election, and they would therefore perpetuate themselves in office. But they would not defy the law by refusing to lay off the city into wards any more than they would defy the law by refusing to set in motion the machinery to provide for the election of their successors.

4. There can be no election at all, unless 25% of the legal voters sign. If over 75% are against consolidation, where will that 25% favoring it come from?

5. Have not over 25% (per cent) of the voters of Albany signed petitions requesting consolidation?

6. If a majority of the voters are against the name requested, by those signing the petition, then the names will be Decatur and Albany, as at present.

7. When New Decatur's name was changed, the new name "Albany" was laid down, flatly and peremptorily by much less than twenty five per cent, and all the voters had to take the name prescribed or else vote that name down, without the right to choose another.

8. What could injure either town more than a feudist display of hostility?

JUST IN PASSING

WAS ON THE MELVILLE

"I read with much interest the story of the explosion on board the Melville in which several men lost their lives," said "Cy" Graham, star hurler of the Albany-Decatur squad and recently discharged from the Navy. "I was stationed on the Melville for a time while she was in Queenstown, Ireland."

THE LAWRENCEBURG DIAMOND

"The reason why so many home runs are secured by the Lawrenceburg players on their home lot is the diamond itself," said Mrs. Ott Hames, who visited the Tennessee city last week. "The diamond is studded by several trees, and whenever a ball is hit into one, it is a home run. You probably noticed that Lawrenceburg failed to register any home runs while playing here."

"I must say," continued Mrs. Hames, "that the Albany-Decatur team gets splendid treatment at Lawrenceburg. Our boys are great favorites there and at times the stands root for them and against their own players. I never saw this happen anywhere else."

MORAN SUFFERS FALL

Local citizens read with much interest the press dispatches telling of the fall suffered by Lieutenant Moran at Florence. The birdman spent nearly a week here recently and was accompanied on his flight by a number of local citizens.

Regarding his fall at Florence, The Florence Daily News says:

"The big DeHavilland aeroplane that was wrecked at Weeden Place Saturday was brought into the city yesterday afternoon on two big trucks. The accident was caused by a little bump which one of the wheels struck before the plane left the ground. Its course was changed by striking the bump and to avoid striking a house, pilot Lieut. Moran, changed the course of the plane and did not have time to miss the top of a pine tree."

"He hugged the tree with the plane and came to earth without injury except to the plane which was badly wrecked. It will be shipped back to Montgomery. Another aeroplane is expected to arrive today. The daily flights will be continued just as soon as the plane arrives."

MERCHANDISE SCARCE

John L. Proctor, manager of the Morgan Furniture Co., has returned from a business trip to northern cities and reports it to be very difficult to make purchases in furniture lines, some manufacturers being sold up for the next twelve months. Mr. Proctor says supplies in furniture and dry goods are very scarce and bringing top prices with manufacturers.

ity by one against the other; and an endless recital of ancient grievances and stale gronches, a hermit disposition, an antipathy to co-operation, deadly animosity and implacable rancor.

9. As to the clamor about losing the depot, express office, schools, Tavern, Wheeler-Park, and the Tennessee River, (any one of these is as likely to be lost as any other) there never was a spirited election, in which each side did not predict, that if it loses, all will be lost—save honor.

10. If we ought refuse to refuse to hold an election, (especially if those asking for it have to pay for it), merely because the people may get all stirred up, we should abandon all elections, and popular government will become "one with Nineveh and Tyre."

Albany is neighbor to the "Withered arm—Black spot—Fire Alarm" and the two are growing cheek by jowl; like two trees whose roots are intertwined; and are physically, though not technically one tree, even though one be a sycamore and the other a black jack. The very growth of the sycamore is grafting them together, why not recognize the inevitable destiny and bring about the union technically and scientifically, rather than leave it to main strength and awkwardness?

Ugh! Calomel Sickness; Salivates! Please Try Dodson's Liver Tone

I am sincere! My medicine does not upset liver and bowels so you lose a day's work.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your

druggist sells for a few cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate. Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children as well.

"When Can I Get That is the Inquiry Men Now Make Concerning the Light Weight, Quality Car An Essex?"

No industry has equaled the automobile for its surprises. And judged by the way people everywhere have taken to it, no car has equaled the Essex in the quickness with which it has gained its leadership.

Some Say Advertising Oid It

There is a measure of truth to that. But the advertising was not of the usual type. The Essex received the kind of advertising that is always effective. No product has been advertised as it has been that has not become a favorite.

Its advertising has been the voluntary praise of tens of thousands who recognize Essex qualities.

Just as it has never been necessary to stimulate a want for an automobile because its utility is recognized by everyone, so it has not been necessary to more than call attention to the Essex.

Six Million Motorists

Six million American motorists have rather definite perceptions of their ideal car. The Essex seems to have met the ideal of many thousands of that number. It is evident on every hand. You hear favorable mention of the Essex wherever the subject is discussed.

The Essex is so well advertised because it fills the want so many people have long entertained.

Everything you hear about the Essex is what motorists think of it. At first only impressions such as came from a store room view and a short ride were given. But those views were all to the advantage of the Essex.

Now thousands of owners know from daily service just how good a car the Essex is.

So the Matter Of Delivery Is All

That is about the only question buyers now ask.

Factory production is now steadily increasing. It is close to a hundred cars a day. Buyers must have some patience. They must not expect to get an Essex off the floor whenever they may decide to buy. Wanted articles are not usually so easily obtained.

All dealers are forced to enter orders and make delivery in rotation. The man who buys today will get his Essex sooner than he who delays.

But isn't it worth while to take one's turn in buying such an important article as an automobile, and especially when the car is so universally raised as is the Essex?

Dancing Chicklets
Please Big Crowd

LeRoy Osborne's dancing chicklets
opened a week's engagement at the
Masonic theatre last night before a
packed house and pleased the big
crowd immensely. Ned Haverly, dan-
cing black-face comedian was forced
to respond to several encores. Other
numbers were applauded equally as
vociferously. The company was pre-
sented one of the best tabloid aggre-
gations ever seen at the Masonic. The
chorus danced well, introducing a
number of new steps.

Formalin for Ingrowing T & Nail.

Sulley advises application of a so-

the relief of ingrowing toenail. A pled-

swabbed over the granulations once
every day. The pain is relieved almost
immediately, the inflammation is rap-
idly reduced and the cure is practi-
cally complete in four or five days.—

Post Card Travels 100
Miles in 39 Years

(International News Service.)
INDIANAPOLIS, Ind., July 28.—
"Cincinnati to Indianapolis in Thirty-
Nine Years" might well be the title of
the mystery story of a postal card,
mailed on February 16, 1880, in Cin-
cinnati, and which has just been de-
livered to Joseph Allerdyce here.

Nothing was on the envelope which
enclosed the card to indicate its fate
during the nearly two score years it
has been on its way, except that it
bore the postmark "Somerville, Mass.,
June 28, 1918."

The card, from Nathan Wolfstein
& Co., then in business at No. 36
Main street, Cincinnati, read: "Owing
to high stage of water in Ohio River
we are compelled to move our hides
upstairs. We have 1,000 buffs, which
we offer you at 94 cents here, sub-
ject to acceptance in a reasonable
time."

Postmaster Springsteen added the
notation that he "hopes the figures
for acceptance in 'a reasonable time'
still hold good."

The postcard indicated that it left
Cincinnati at 8 p. m. on the day of
mailing, and it was pointed out that
the present Postmaster-General can-
not be held responsible in this case.

Lucky Youth.

A boy was up before an English
magistrate for stealing gooseberries.
The clerk was absent, so the magis-
trate had to look in an alphabetical
law book to see what he ought to do.
Presently he turned to the boy and
said: "My lad, it's lucky for you it's
gooseberries, and not a goose. For
a goose it's a month without the op-
tion, but—I can't find any reference to
gooseberries. You are discharged."

Oriental Rugs.

Not only the design but the colors
of the rugs woven in the Orient are
full of significance. They represent
national or individual traditions, and
stand for virtues, vices and social im-
portance.

HOW SHIVAR ALE
RENEW'S HEALTH

New England Scientist Discovers the
Secret of the Well-Known Health
Giving Properties of This
Famous Southern
Product.

Dr. W. H. Morse, Consulting Sci-
entist, Hartford, Conn., after careful
analysis and experimentation, has dis-
covered the scientific reasons for the
well-known medicinal effects of
Shivar Ale, a Southern mineral water
product, whose health giving prop-
erties have won the favor of the
medical profession, as well as the
laity, throughout America.

Dr. Morse's attention was first at-
tracted to this subject by own per-
sonal experience in the use of the
Ale, and by his observation of its
beneficial effects upon his patients,
but not being contented to merely
observe the results, he decided to find
out the cause. His analysis and prac-
tical tests disclose the fact that Shivar
Ale possesses marked beneficial ef-
fects upon the system in three rela-
tions, namely, digestion, nutrition and
excretion. Dr. Morse finds that the
Ale increases the flow of the digestive
fluids, namely, saliva, gastric juice and
the pancreatic and intestinal juices,
thus assisting weak stomachs in the
digestion of all varieties of foods. It
repairs the food completely for ab-
sorption and nutrition, thereby im-
proving the health, strength and nour-
ishment of the system as a whole, in-
cluding the stomach itself, for the
stomach is one of the first organs to
suffer from the consequences of its
own failure to properly digest food.

Dr. Morse further explains that in
consequence of the perfect digestion
and the increase of digestive fluids,
the Ale corrects constipation, bilious-
ness, headache, numerous forms of
auto-intoxication, uric acid poisoning
and many other disorders growing
out of faulty digestion and faulty
elimination.

Automobile Owners
Should Avail Them-
selves of Expert Ad-
vice

If automobile owners could but
realize the full measure of increased
efficiency and insurance against trou-
ble which they could secure by intel-
ligent attention, care, and adjustment
to their cars, as outlined in their in-
struction books, the cost of motor car
 upkeep would decrease, and their sat-
isfaction increase in direct proportion,
according to Frank S. Harris of the
Harris Motor Co.

Realizing this condition the Hu-
pmobile Corporation persistently em-
phasizes, thru personal corre-
spondence with dealers, and thru them
in turn with owners, the necessity for
such care even or the most carefully
constructed cars.

Not only would this education have
a direct personal benefit, but it would
create more satisfactory and intelli-
gent customers for garages and re-
pair shops.

HORSE SENSE
in horse feeding.

It is shrewd common sense to feed a horse a balanced feed, which will
develop every part of its body. Analysis of Purina O-Molene Feed
shows that it contains in proper proportion all the elements for muscle,
blood, hair and hide making, as well as a large percentage
of Nitrogen free extract, which supplies heat
and energy. There is no 15 to 18 per-
cent waste as in
feeding the whole
oats, due to swallow-
ing whole.

Suffered With Rheumatism, Catarrh and Stomach Trouble

"I think Number 40 For The Blood as a blood purifier has no equal. When I began to take Number 40, I was in very poor health, as I had Rheumatism, Catarrh, Stomach Trouble, Lead Poisoning, and an Itch that I had tried almost every known remedy to relieve. I have taken six bottles of 'Number 40' and am on a fast road to recovery. I owe my life to it, as I used to weigh 127 pounds and now weigh 148, my usual weight. I could write more but this should be enough to convince the most skeptical, and you are at liberty to use this letter anyway you desire." Geo. Klinker, Lima, Ohio.

The ingredients in "Number 40 For The Blood" are set down in the U. S. Dispensatory and other reliable medical books as follows: "Employed in diseases of the glandular system, in blood poison, constipation, stomach and liver troubles, chronic rheumatism, catarrh, sores, ulcers, skin eruptions, mercurial and lead poisoning. Under its use nodes, tumors, scrofulous swellings that have withstood all other treatment disappear as if by magic."

Positively Marvelous Results
Follow the Use of Sulfuro-Sol
In Cases of Rheumatism, In-
digestion, Eczema, and Other
Skin Troubles.

People call Sulfuro-Sol "The Wonder Medicine." It produces most surprising results in Rheumatism, Indigestion, Eczema and other skin and blood troubles.

"It makes you all over again," is one comment from a lady who won her fight for health by taking it. Sulfuro-Sol is Nature's own remedy. It comes right out of the earth—a solution of sulphur and iron with other minerals and salts that are beneficial to the system. Thousands have used it and many have testified under oath that it has wonderful healing power. It contains no alcohol or dope, and therefore gives no artificial stimulation. If you suffer with any of the diseases named, or if you feel generally run down or weak, try Sulfuro-Sol and find out what it will quickly do in improving your condition. Your druggist can supply you. Refuse any substitute. There is no medicine like Sulfuro-Sol—nothing "just as good."

Hawaiians Dying Out.

According to Prof. Vaughn MacCauley of the College of Hawaii, the Hawaiian race is rapidly becoming extinct. This disappearance of "one of the finest physical types known in the history of the human race" is due to the introduction by white men of alcohol, plague, measles, leprosy, tuberculosis, pneumonia and the most terrible of blood diseases, none of these having been known in Hawaii before the advent of the white man.

Electric Lighting.

There are 8,900,000 homes in this country lighted by electricity and 14,800,000 lighted by other means. A few homes in the latter class are wired, but are not connected to any electric service. It is estimated that in the homes lighted by electricity there are 125,000,000 sockets containing improved lamps, 25,000,000 sockets containing carbon lamps and 11,000,000 empty sockets.

Goethe Memorial at Weimar.

The genius of Goethe and Schiller characterize Weimar in many forms of civic beauty. Goethe, some years before his death, laid out a large public park in the form of a garden and without an enclosure of any kind. There a quaint relic of its originator remains in the stone altar round which a serpent climbs to eat the votive bread. Upon the altar is an inscription to the "genius hujus loci."

SPRINGFIELD MAN GIVES TESTIMONY

LANGFORD DECLARES TRUTONA BEST MEDICINE HE'S EVER TAKEN.

SPRINGFIELD, Tenn., July 28.—Practically everyone in Springfield knows, likes and esteems Mat Langford, foreman of the composing room of the Herald-News. Mr. Langford has lived in Springfield all of his life and he is well known and highly respected by everyone in this vicinity. He has the following to say of Trutona:

"For the past seven or eight years I have been bothered with constipation. I had a poor appetite, too, and was often suffering from pains in my back. My liver caused me a lot of trouble, too.

"Although I've taken Trutona only a few days I know it is the best medicine I've ever taken. The relief I've gotten from the constipation has been truly wonderful. I have a better appetite, too, and thoroughly enjoy my meals. I rest better at night, also. As I said, I believe Trutona is the best medicine I've ever taken and I can highly recommend it to others. I'm sure they will derive a wonderful lot of benefit from a bottle of the tonic."

Trutona is now being introduced and explained in Decatur by Decatur Drug Co., and in Albany by Preuit-Dillehay Drug Co. Advertisement.

BASIC PRINCIPLE IS FAITH

Whole Child Character Built on It, According to Writer in Mother's Magazine.

A man never marries the woman he jokes about, and never jokes about the woman he marries. If women followed the same rule, marriage would be the gain. And if wives worried less about the unborn and used more reason about the children that are born, a single generation would revolutionize society.

The boys of today are Fathers in the Making. The kind of fathers they turn out to be will depend entirely upon the influences that form their characters as children.

I have said the man's faith in woman is stronger than woman's faith in man. Do not forget that truth. But, even when faith flies out of the window, love may remain.

Keep this distinction between love and faith clearly before you, because the foundation of the home, and the basis upon which child character is built, is faith.

First, there is the faith of the husband and wife, each in the other.

Second, there is the faith of the child in the mother.

Third, the faith of the child in the father.

Fourth, the faith of parents in the child.

Fifth, the faith of the child in the true principles of life, and its own duties and rights as a human being.

These five elementary influences determine the character, and in the absence of and other force greater, usually remain the moving impulses of the individual all through life.—John Horace Lockwood, in Mother's Magazine

EXPLAINS NATURE OF THIRST

Doctor Cannon of Harvard University Shows Where Popular Conception Has Been Wrong.

The popular conception of thirst, according to a well-known medical journal, is a lessened water content of the body, a condition in which the entire organism suffers, but Dr. W. B. Cannon of Harvard university, considers it a purely local phenomenon.

"According to him, the pre-eminent factor is the relative drying of the mucosa of the mouth and pharynx. This may result either from excessive use of the passage for breathing, as in prolonged speaking or singing, or it may be caused by deficient salivary secretion. The latter, according to Cannon, represents true thirst depending on the fact that the salivary glands, which keep the buccal and pharyngeal mucosa moist, require water for their action."

The salivary glands occupy a strategic position in relation to a surface that tends to become dry by the passage of air over it. "Thus," Cannon concludes, "the diminishing action of the salivary glands becomes a delicate indicator of the bodily demand for fluid."

Hunger Helps Diabetics.

During the course of the world war, as the blockade and unfavorable internal conditions were gradually cutting down the rations of the central empires, it was frequently noted in German newspapers that, at all events, the food shortage had some redeeming features, chief of which was its beneficial effects upon sufferers from diabetes.

In corroboration of this assertion, now comes Professor Rosenfeld of Breslau with an article in a recent number of the Zentralblatt fur Innere Medizin, showing how the number of deaths from diabetes was reduced during the war. In Berlin such deaths in 1918 totaled 177 against 204 in 1917, 331 in 1916, 383 in 1915, 467 in 1914 and 400 in 1913; in Munich they were 77, 73, 82, 101, 104 and 105 for the same years, and in Breslau they were 51, 72, 78, 113, 115 and 100.

Cut Metal With Smooth Disks.

Not so very long ago the discovery was made that metals could be sawed easier and quicker with rapidly revolving smooth disks of steel than with toothed circular saws. It was found that the cutting was done by the heat generated by the friction of the edge of the disk against the metal. The metal is melted at the point of contact while the steel of the disk, being cooled by the air, does not reach the melting point. The disks need no sharpening and do not wear out so quickly as the toothed saws heretofore used for cutting metal. The faster the disk revolves, the greater the amount of heat generated and the quicker the job.—Popular Science Monthly.

Oil and Hellum in Canada.

Canadian commercial enterprise is again before the British public in the form of two announcements, the first being that exploitation of the oil fields of Western Canada on a large scale is in contemplation.

The second announcement refers to the discovery in large quantities in Western Canada of hellum, the lightest known gas after hydrogen, which is more suitable than the latter for filling airship envelopes, as it is non-inflammable and nonexplosive.

Trade With Nicaragua.

Declared exports to the United States from Bluefields, Nicaragua, amounted to \$2,715,222 in 1918, an increase of \$1,286,452, compared with the value of the 1917 exports. Bananas were the chief article of export, the value of those shipped being \$1,101,000 in 1918, a large increase over the 1917 shipments of \$204,902.

"S. O. S." CALL FOR DENTIST

Residents of Alaskan Island Need Services of Man Skilled with Drills and Forceps.

Is any dentist hunting for a location? Here's one. It is on Afognak, an island lying east of the entrance of Cook's inlet, on the Alaskan coast.

While the icebergs float around occasionally and bump one another in the sea like giant monsters in a game of water polo, yet it is comparatively warm up there now, as the summer is coming on with its flowers and mosquitoes. But whether an Arctic winter or a brief summer is on, people will have the toothache up there near the Arctic circle the same as do the sweltering residents these days along the thirty-sixth parallel of latitude.

Miss Virginia Clark, an accomplished young woman who was born and reared on the island of Afognak, and is now teaching the youth of her native land and village, sends out this cry for a dentist. The information is given in a bulletin of the Alaska Bureau of Publicity.

"A dentist located here would have a snap," is the only information given out by Miss Clark. She gives no clue as to the financial standing of the patients, but the lucky dentist could no doubt fight off the H. C. L. nightmare by doing a piece of dental work for an Eskimo and taking his pay in walrus meat. Miss Clark does say that potatoes and garden truck thrive there, the fishing is good, and there are plenty of clams and wild ducks. Copper also is found in paying quantities, and placer gold mining is being successfully carried on along the beaches.

Improved Lightship Bell.

A new lightship also has a bell, which is made to ring automatically by means of a highly ingenious device which utilizes the gas as it passes from the tanks to the lantern, to actuate the bell clapper. The light is not interfered with in the slightest degree by the operation of the bell-striking device. It is only set in motion, however, in very foggy weather, when the light cannot be distinguished at any great distance.

Pack Trunk Tight.

The secret of successful packing a trunk is tight packing. The inexperienced fear of crushing gives a trifle room to slide and slip.

TODAY

Now for Something Else.
To End the Ship Strike.
A Baby—and \$75,000,000.

(By Arthur Brisbane.)

Pershing, well received in England, says, "The job is done; now for something else." Many things "else" will be next. Serbia knows it and is purchasing large quantities of war material and aeroplanes. That seems to be a country hard to discourage. One hundred and fifty thousand Ally troops will attack and if possible take possession of Budapest, putting out the Bolshevik government. The "something else" is here.

There is plenty of work ahead for military fighters, still more for those that must settle social and labor disturbances. In half a page newspaper type we learn that English coal miners flood the mines when they strike. This patriotic effort results in contracts for half a million tons of American coal to go to France. More scarcity here with the usual Coal Trust panaceas, "higher prices" and "fill your cellars now."

Typewriter plants, oil works and the military prison at Fort Leavenworth are all dealing with strikes.

The "general strike" called in Italy was a general failure. That is one bright spot, but it may fade.

Will a baby lose seventy-five million dollars because its mother and father didn't happen to be married? That is the question that courts and human prejudice will decide. Marshall Field left the money to the "issue" of his grandson. His will did not say "lawful issue." Must a baby be fined seventy-five million because of something he couldn't control? Would the great-grandfather, if he were here, say, "The baby looks like me; give him the money anyhow," or would he say, "No marriage, no money?"

This question could take you back a long way, to the days when all children took the mother's name, and when, even as late as Homeric times, a victor would take as hostage the son of the conquered King's sister, rather than the King's own son, so much more importance being attributed to the female line.

Henderson, a really great labor leader in England, declares that the coal strike can only be ended by Government ownership and control of mines. That seems the probable solution. In Australia, that "perfect democracy," soldiers discussing grievances with the Prime Minister, bruck his head open with an ink well. And in England at Luton, centre of the straw hat making industry, British soldiers burn the Town Hall and destroy the public records. Not all the troubles are on the side of the vanquished when a war ends.

Frank Munsey, journalist and statesman, is properly excited because England gives a first-class title and half million cash to each of her two principal war heroes, General Haig and Admiral Beatty. Mr. Munsey wants to know why we don't give something to American heroes. He points out that England gave Wellington a Dukedom and three and a half million dollars. She gave the Duke of Marlborough much cash and a palace that cost a million and a quarter.

An American girl, Miss Vanderbilt, subsequently acquired and decorated it and lives in it. England knows enough to make it worth while to fight for her. She even knows how to make this country fight for her, which, in the language of diplomacy, is "going some."

Shipping is tied up by a strike. Government could end it forever with a sincere enterprise in the way of Government ownership.

The people built the ships, paid for them in taxes and bonds. They own them, or OUGHT to.

If Government would run the ships with a sinking fund to pay for them, freight and passenger charges as reasonable as possible, rates favoring this nation as they should, fair wages and hours with a share of the profit to the crews, do you think there would be any labor troubles on shipboard? There would not.

As we have just learned that the most important thing for the people of this country in war is shipping controlled by Government, could anything be more outrageous than the plan to put ships built by the people under private control and under foreign flags as suggested? This is really as Northcliffe says, "A very docile people."

Missionary Society Has All-Day Meet

The Woman's Missionary Society of the First M. E. church, Decatur, met in all-day session Monday with Mrs. D. D. McGehee. Her home was very attractive with bowls of Golden Plover and other flowers of the season. At eleven o'clock the meeting was called to order and the devotional exercises were conducted by Mrs. W. A. Brown. In developing her theme, "Oh, woman, great is thy faith," she asked the searching question, "Are we feeding the multitudes with the

bread of life so that all may eat and be filled?"

The new book for study is "The Women Workers of the Orient" by Margaret E. Burton. The first chapter was presented most ably and interestingly by Mrs. L. J. Ramage. Always a pleasing speaker, Mrs. Ramage appeared at her best when appealing to the women of the Missionary Society for a sympathetic study of the awful conditions surrounding the low caste women of the Orient. The noon hour was spent in a most enjoyable manner with the hostess. Dainty sandwiches and iced tea were served.

The devotional exercises of the

afternoon session were conducted by Miss Mattie Banks. Her subject was "As a man thinketh in his heart, so is he."

The program for the day was concluded by Mrs. Ramage.

RATIFICATION CERTAIN

(International News Service.) WASHINGTON, July 29.—"We are most confident that the peace treaty will be ratified without amendment or reservation," said Senator Hitchcock today, as with Senator Swanson he left the White House, following an hour's conference with President Wilson.

Levi P. Morton Ill at His

(International News Service.) NEW YORK, July 29.—Morton, former vice president U. S. and governor of New York, is ill at his home at Rhinecliff, learned today. Mr. Morton is 74 years of age.

Dream Tears.

Far better to dream of a day of laughter, for tears in a dream are joy and merriment in real life, laughter, when it is dream presages difficult circumstances.
